SERGEANT HALL'S ENCOUNTER.

Shot by a Desperate Negro-Courtland's Trade in "Wet" Groceries. [Correspondence of the Richmond Dispatch.]

[Correspondence of the Richmond Dispatch.]

COUBTLAND, SOUTHAMPTON COUNTY, VA.,
May 19.—Mr. F. Hall, sergeant of this
town, while trying to arrest a negro man
named Moses Exum for disorderly conduct
was shot through the thigh and badly
wounded last night about 9:30 o'clock.
Hall is a brave, fearless man, and had he
not been shot down the negro would have
fared pretty badly under the weight of his
billy. Dr. J. Emmett Sebrell extracted the
ball and dressed the wound, which though
panful is not considered dangerous. Hall
was to have been married to a young lady
of isle of Wight ceunty on next Thursday,
the 21st instant, and had made every arrangement to leave here this morning for
that county.

Courtland is now having the best trade

Courtland is now having the best trade in her history, she being the only "wet" town in this county, and is daily sending out packages of test goods to her sister dry towns, who have petitioned the County Court to refuse liquor-license. The county and State have thus lost a considerable and State have thus lost a considerable and state have thus lost a considerable and it is currently reported that "Rock and it is currently reported that "Rock and Rye" and other beverages are big seliers in these dry places.

ALEXANDER BROWN.

Crops are backward, and such as are up are looking very badly on account of recent extreme dry weather. Peanuts are lying in the ground parching, and now that we have some moisture the nights are so cool there is great danger of their rotting. These facts together with a decrease of acreage will no doubt cause the present supply to advance.

The Alliance peanut-factory at this place has shut down operations for the season, and probably will not start up again before the new crop comes in.

This has been the most quiet and inexpensive campaign the candidates for

county offices of this county have ever had, the only opposition arising being for the minor district offices, and from present appearances the whole Democratic ticket as nominated will be elected.

SHEEP-RAISING. How Virginia Land-Owners May Profit by It.

The following is an extract from a letter written to Vice-President C. G. Eddy, of the Norfolk and Western Railroad Company, by Mr. E. J. Huling, of Albuquerque, N. M., who is a great sheep-grower there and in Virginia.

Your favor of the 24th reached me a few days ago, and in reply I will say: The sheep enterprise in which I am interested is located in Halifax county, the nearest railroad point being "Lennig" on the Lynchburg and Durham railroad, about forty miles south of Lynchburg. We have about 1,800 acres of land there, and I believe we have the foundation for a prosperous business in the sheep line. We took 1,100 head of choice sheep from the West about December 1st last, and thus far have no reason to believe that they will not prove profitable. We have had quite a number of sheep die, I hear, but it was due to our lack of preparation more than to any local cause. On the cheap lands of Virginia and the South in general, there is no reason why sheep should not be grown as successfully and more profitably than on higher-priced lands in the West. Living, labor, and all items of expense are lower than in the West; and while feed and forage are naturally higher, the increased profit of being nearer market, we believe, overcomes this one item. The average winter period is short, and with reasonable care sheepraising can be made prosperous and of great benefit to the whole southern country. Their value alone for fertilizing the worn-out lands of the old plantations is incalculable, and lands appreciate in value after several years' pasturing of sheep on them.

The Old Style and the New. To the Editor of the Dispatch : I quote from an editorial in your issue of May 16th: "Columbus discovered America October

or May 18th:

"Columbus discovered America October
12, 1492, old style, so the books tell us.
Yet the new style did not come into vogue
until well nigh 300 years afterwards.
Would Mr. Brown celebrate the 23d of
October?"

I reply—No! The difference between
the old style and present style or mode of
computation of time in 1492 was only nine
days. So the 12th of October (old style) in
that year corresponds with our 21st of October. In 1607 the difference had increased
to ten days, and the 18th of May (old style)
was the 24th of May, present style, in that
year. In 1752 (when the English Government finally adopted the new style mode)
the difference had increased to eleven
days, and the 11th of February, old style,
was therefore the 22d of February, present
style, at that time.

# NECKWEAR. SPECIALBARGAINS

We are doing a rousing trade in Spring-Weight Wearing Apparel. We've Tion never yet had such a st handsome stock, such a handsome stock, such a Ties; Ladies Kid Oxford Ties, 996.—an

\$7.50, \$8, \$9, and \$10 each. They are rattling good Suits made from pure wool fabrics and are by far the best Suits for the money ever offer-

ed to the public.

At \$4, \$5, and \$6 we are showing GOOD SER-VICEABLE GAR-MENTIS. These are excellent values. Of course they are not so fine or dressy, but they are the best knock-about Suits ever sold for the money here or anywhere else.
Our line of Suits at \$12, \$13.50, and \$15 are undoubtedly the handsomest and dressiest ever shown at these prices. Our special efforts are directed to these particular grades, as they command our heaviest business. These Suits are made of fine Cassimeres, Cheviots, and Worsteds, comprising many patterns, styles, and notions and are as PER-FECT FITTING as any man wants to wear. No man need be ashamed to wear such Garments as these referred AND OUR ENTIRE STOCK OF HATS AND to. They are made of strictly first-class materials by our own first-class Tailors and are a clear saving of no less than 50 per cent, from what the same would cost to duplicate from High-Priced Tailoring Houses and not get better made, better fitting, nor better wearing Garments at that.
